ESH Newsletter - June 2018

# **June is National Safety Month!**

Your next question may be where is our Operation Safety? Please be patient- the Safety Squad is working on a plan for recognizing OSHA's Safe + Sound week, August 13-19<sup>th</sup>. Send us your ideas for activities, events or sessions and we will add them to our list of possibilities.

In the meantime, here are some resources for you to use

### through each week of National Safety Month:

#### **Week 1: Emergency Preparedness**

| <u> </u>                           |                                    |
|------------------------------------|------------------------------------|
| AT HOME                            | AT WORK                            |
| Build an Emergency Supply Kit      | Emergency Situation Checklist      |
| Sign up for Story County Emergency | Sign up for ISU Alerts             |
| <u>Alerts</u>                      |                                    |
| Make a Plan for your Family        | Watch ISU Emergency Response Guide |
|                                    | Video                              |

#### Week 2: Wellness

| AT HOME                  | AT WORK                      |
|--------------------------|------------------------------|
| Check your Sleep Health  | Follow Active for Life       |
| Prevent Heat Illness     | Sit Less – 3 Week Challenge  |
| Healthy Living Checklist | Find ISU Wellbeing Resources |

#### Week 4: Driving

| ON THE ROAD                     |
|---------------------------------|
| Know Your Car's Safety Features |
| Always Drive Safe               |
| Drive SMART                     |

### SEVERE WEATHER SEASON

It's severe weather season in Iowa, as evidenced by the recent hail, wind, rain, and funnel clouds.

Are you ready to take shelter if needed?

During the March Ames Lab severe weather drill, people commented that the shelter areas weren't well identified, and they weren't sure what to do when they got there. Thanks for the great feedback! In response, new signs and informational posters were installed in Metals, Spedding, and Wilhelm. Look for them during the next drill or severe weather warning.

# **Ames Laboratory Blood Drive**

Thursday, June 7th 10:00 AM - 3:00 PM 301 Spedding

### **Lessons Learned for Personnel Accountability Drills**

Last month, Ames Laboratory conducted two personnel accountability drills as part of the Department of Energy's annual Eagle Horizon continuity drill. The Lab was able to account for 79 percent of its employees, affiliates, and contractors in the first drill and 100 percent in the second drill.

In the event of an emergency, personnel accountability is performed to enable expedient and efficient search and rescue efforts and to establish the whereabouts of mission critical personnel for the continued operation of essential Lab functions.

To read the complete Lessons Learned, click here.

## HF BOTTLE AND LID COMPATIBILITY

During May's Safety Coordinator Safety Rep meeting it was brought to our attention that companies are shipping HF (Hydrogen Fluoride) in HF compatible bottles, but the lids are not HF compatible. If you notice any degradation of chemical bottles or lids please notify the manufacturer and the safety department. We will assist you in any way possible to remedy the problem and take steps to prevent future problems.
